The Other Side of the Wind

Head-turning exteriors

The wallywhy150 serves as yet another example of Wally being ahead of its time, setting standards in yacht design. A smaller version of the wallywhy200 sharing a selection of the same features, the wallywhy150 is under 24 metres in length and 150 GT. To top it all off tailored and unique details give it its own identity.

The wallywhy150 incorporates some of the wallywhy200's best features, while opening the door to new and innovative solutions in this size range. Most importantly, its exterior spaces have been maximised and optimised as much as possible – they are absolutely enormous and totally unique for this category in the industry.

Great emphasis has been given to all of its exterior areas, where the masterful use of the outdoor space allows it to offer in the sundeck a complete dining option and a bar/kitchen with grill, fridges and all the open-air living amenities at sea.

On the main deck aft, the full-beam interior saloon is on the same level as the cockpit down to sea level, creating a close sense of connection with the water.

The full wrap-around glass on the main deck, with the high bow presents a 270-degree view from the unique forward master cabin. First premiered to the world on board the wallywhy200, the wallywhy150 is the first yacht of this dimension to feature it.

The wallywhy150 was created by Wally-Ferretti Group Engineering, while Studio Vallicelli Design penned its interior design.

With its optional three IPS1350 engines, the wallywhy150 can reach a maximum speed of 23 knots, or 21 knots with standard propulsion of three IPS1200 engines.

Design beyond compare

The wallywhy150 is a yacht just over 78-foot offering unparalleled exterior spaces.

An al fresco state of mind

Up top, there's a vast saloon en plein air that runs nearly the entire length of the yacht – part sundeck, part chill lounge, and part party space – with the trademark angular hardtop providing shade and weather protection while extending seamlessly from the stealth-style glass raised pilothouse. The indoor-outdoor terrace flows uninterrupted from the upper saloon forward to the sea aft.

Let it

entertain you

The **wallywhy150** offers an extraordinary split-level saloon-cum-dining area that leads straight out onto the aft beach and features floor-to-ceiling glass which dominates the design of the vessel.

Room for days

Have it all

Sporting a curved ceiling, the living area has the highest headroom in her class, reaching heights up to 2.5 metres (8'2").

The hydraulic aft platform can be lowered both for launching a tender or as a submerged beach and swim platform, and the design allows not only for the carrying of a variety of water toys but also of a 3.9-metre tender.

The hull carries huge expanses of glass that provide the forward, elevated master suite with the trademark wraparound bow windows, offering a 270-degree view.

The comfortable double bed gets its walkaround space and still from that glorious yawn of a view, a true aquatic amphitheatre to watch the ever-changing play of the sea and sky.
